

**Title : In Absence**

**Composer : Iskandar Ismail**

**Lyricist : Wilson David**

Ever since you went away  
I have missed you night and day  
Missed your voice and phrases  
Your smile and funny faces  
Every night before I sleep  
I think of you my love instead of sheep  
Your helping hand in times of need  
A true and loving friend indeed

I love you darling yes I do  
Life would be empty without you  
So please believe me when I say  
My love for you will always stay  
Please come home to the one who pines  
Your kiss my darling and your touch divine  
Your laughter and your love sublime  
You'll always be my Valentine

And in absence life is not so sweet  
It's you I want and you I need  
Life's so misty and unclear  
Like the murky waters near the pier  
So this is why I always plead  
Don't stay away too long from me  
In absence life is never sweet  
So don't stay away too long from me
