

Title : Get Well Soon

Composer : Famie Suliman

Lyricist : Famie Suliman

So you have lost your words
and all your confidence.
After the doctor broke the news,
your fears return.
And you heart start to pump and your hand
start to lock, then you regret.

Now you recall back to the day
you pass them by.
There's so much joy around to
keep you satisfy.
And a cry came along ,
keep your head stand up strong,
it 's worthwhile.

Oh, are you feeling better,
Yeah hold my hand tight together.
I 'm all over the moon,
I hope you get well soon again.
