

**Title : You'll Never Gonna Take My Life**

**Composer : Famie Suliman**

**Lyricist : Famie Suliman**

You'll never gonna take my life,  
never gonna take my life.

You can run, you can hide ,  
You say things that hurt inside,  
I'll stay calm, I keep myself deprive,  
but you can never take my life.

I don't intend to be your friend,  
You only wanna see things that I'm lack,  
You look down on me and you just jive,  
But you can never take my life.

You'll never gonna take my life  
you'll never gonna take my life.

Come around and sit beside,  
and comfort me with everything you've got,  
I know you just wanna make my mind,  
It's not true cos it's just a lie.

To be alive and not to cry  
Is everything in life that we just want,  
We can dance if you wanna dance,  
But you can never take my life.

Oh why, oh why would you do that?  
Don't get mad, this is fact,  
Come on sing this and that.

You'll never gonna take my life
