

Title : I Don't Know You

Composer : Dick Lee

Lyricist : Dick Lee

You moved the heavens above me
Held up the earth below
You never said that you love me
Well, just assuming I don't know
Give out a little signal
Make a shooting star fall
Just love me once or not at all

You can be so inconsistent
What should I make of you
Sometimes you warm me with kisses
Then you're as cold as an ice cube
Well, am I getting through or
Banging my head on a wall
Just love me once or not at all

CHORUS:

I used to know you
A long long time ago
Who could you have turned into?
I don't know you anymore

You used to cook me a dinner
Romance me with your eyes
I'm getting thinner and thinner
Starved of your love — I'm a sad guy
This is a small reminder:
Send a message or call
Just love me once or not at all.
