

**Title : Wataboshi**

**Composer :**

**Lyricist :**

PC Oh little dandelion

Soon the wind will blow

And it will scatter

Your seeds as white as snow

Please take this message

Every way you go

**Chorus**

PC/EL When everyone understands

And everyone lends a hand

The seeds of love will grow

All around the world

RL Oh little dandelion

Everyone has dreams

And we are hoping

That someday we will be

Helping to build a new society

**RL/MT Chorus**

MT Oh little dandelion

There's so much to do

We may be different

But we have feelings too

Give us a chance

To make our dreams come true

EL ah...

EL Oh little dandelion

Now with all our hearts

We want to join in

We want to take part

Happy and free

Just being who we are

**RB Chorus**

**All Chorus**

WQ I have got something to tell you  
I have got something to say

WX I'm turning this dream into reality  
Nothing will stand in my way

AK As I stand next to my window  
Raindrops start falling down

XL My past is just full of memories  
Nothing else left to be found

**(Repeat Chorus)**

ML I'm buying a one way ticket  
Nothing's gonna hold me back  
My dream is like the train approaching  
And I feel coming down the track

**(Repeat Chorus)**
