

**Title : Transformation**

**Composer : Mr Tay Hiang Soon**

**Lyricist : Mr Tay Hiang Soon**

FN from naive to matured  
from ignorant to wise

LW from rashness to patience  
from crudeness to refinement

ES from distant to adjacent  
from rainfall to sunshine

KW from teardrops to laughter  
from strangers to friends of mine

XY We were seedlings in the soil  
Now little buds of joy  
Showered with care and warmth  
Singing a blossom song

QK Cocoons once so fragile  
Struggle in the wild  
Forcing with their might  
Transform into butterflies

AK from passive to determined  
from suspicion to trust

SK from promise to fulfilment  
from disgust to devotion

JX We are diamonds in the sky  
Twinkling in the night

WQ The little brightness we shed  
Will shine for those left behind

XL We wanna live our way of life  
No rules to abide by

AK We ignite a passion  
And translates into action

**Bridge**

Girls We are taller  
We are richer  
We stand firm together

Ladies We have made it to this far  
Proud to be who we are

Boys We are tougher  
We are harder  
We have become stronger

Men We will make it to the end  
Together, hand in hand

Gals We were seedlings in the soil  
Now little buds of joy

Guys Showered with care and warmth  
Singing a blossom song

All We wanna live our way of life  
No rules to abide by  
We ignite a passion  
And translates into action
