Note from wakemeupmusic

Thank You for buying the CD! We hope you will enjoy it!
It's been 2 years since we launched the first of the 3lettersessions series.
Now, 2 years later, we have a chance to witness the progress, the growth,
the acquaintances, the friendship that we have enjoyed. It's our
privilege to be able to work with the bands and their respective labels in
Singapore and also around the region, including Australia, Japan, Hong Kong
and Malaysia.

We would also like to dedicate this compilation to plainsunset and
marchtwelve, for their contribution to the label and also for their constant-
trust in us. It's been great gigging ,working and hanging out together for
the past 2 years. We wish every member of the 2 bands all the best and
thank you for the times we had...

Cheers,

JohnC
