01 it ain't easy - [take your time to breathe from inside | momma will soon be by your side | it's not easy | it's not easy | there's no rush to open you eyes | dry your tears in a loveless night | it ain't easy | it ain't easy] [fly like an angel | looking a saviour breathe | breathe a little longer would you please? you're not one or the other you're an angel free | waiting for an answer it's never been easy] wait a while would you mind? paint a picture of a broken picture ooh it ain't easy]

02 goodness - [likeness there's a likeness with the wicked dreams and wiful thoughts | i am weak | i am not strong | likeness a likeness of what it seems so hard to soft(en) i'm not big i feel so small | likeness in between the pelting rain the sunless skies | i'm not glad but i feel high | likeness a senseless kiss so moodless in the night | goodness for which to find] [i want to take you by my side | away, a lie | away, goodbye | up against to the middle of you and i] [and thanks to the people who has opened my eyes to the goodness inside | why then would we be caught so badly with tears in our eyes]

03 misty - [and i remembered your words and the words you tried to say | i could not remember | things we wanted we will always get but the things that we ever had we will always forget | i could have been wiser or be a lover | the courage ran away from the lightness of being loved | you turned away it's never an answer | from what i thought that time could wash away] [was only you i loved before | from the time i knew you to the time we've lost | was only you i could not call | to say these words i've never said before] [was only you that i loved before | if only time could be turned back once more | to feel so blessed to feel so warm | to know that someone has loved you before] [and i remembered your whispers that you whispered in my ears but you whisper no more | the heart awakes only when it breaks and it aches living on your whispers | it's done for the day | but tomorrow will be the same | will be the same | the feelings fade away from the moment you walked away | you turned away | i needed an answer | for what i did not understand]

04 apart - [(do you know how it feels? my heart is colder i'm missing you)] [when we were together we never need to cry (although we ever) | and it seems to be over | we could never say why (the morning after)] [and time has come to say goodbye | to be where we were apart] [so when we were together | what could have been (it has been written) (like the rain would be over and the sky will clear and we are here)] [but time will come to bid goodbye to be right here apart]

05 here i stand - [and here i am right before you | the world is such a beautiful place | flying high at the top of my story | and it could only be better] [i saw you crying last night | crying for a simpler place to be | you're looking for a place that you'll find | in your dreams | in your sleep | in a world that no one 's weak] [so here i stand and i cry with you | we can only pray for the better while we're here | so here i am with you i'm singing for you | i'll like to be here forever with you | i'm waiting for you] [and here we are all together | there's only so much time to have | wrong or right it doesn't matter | cos we've been wronged most of the time] [i heard you talking softly | talking in your sleep about the place to be | open your eyes open your mind | heaven's only what you think that it should be]
