BIG BANG!

THE MUSICAL

A Kenneth Lyen & Desmond Moey Musical

“Big Bang!” The Musical, was performed at the Kallang Theatre from 8th to the 18th July 1995. Kenneth Lyen and Desmond Moey wrote the music and lyrics of the songs. The script was written by Stephen Yan. Iskandar Ismail & Adrain Oh provided additional music.

The musical is a powerful story about a person whose handicap (motor neuron disease) does not prevent him from exploring the beginning of the universe. The character, Peter Morris, is inspired by the famous astrophysicist, Professor Stephen Hawking, who propounded the Big Bang Theory. Although science is the background, the main theme behind the musical is a tender love story between Peter Morris and Anne, and of man's quest to find the truth for himself, even in the face of the limitations of science.

Hsu Hold your tongue, old friend, Ho, There are things you'd never know. Good for us, we did well, Great eclipse, super show!

But what is life without real care, With whom this honour will I share? Glory to the Emperor, From him a wish I would not dare...

HO Princess Jade is who you want? You will never see the sun! Even though you told him so, Emperor Yao won't have this son...

Hsu What do you mean I told him so, You were the one who said you'd go! I went to teach that little Prince, You were to let the Emperor know!

HO No such thing, old friend Hsu, I was counting just on you! You didn't tell him, I didn't too

Hsu My, oh, my, now what to do!

HO Goodness me - big disgrace,

Hsu Solar Eclipse has taken place!

HO & Hsu Emperor Yao, he'll be mad,

EMPEROR Love of the sun - so it has come, What is done can never be undone....

EMPEROR YAO Such a loss of face, Brought me disgrace!

EMPEROR This is their best, They deserve the rest!

EMPEROR YAO And your heads I'll have them Both displaced!

It is a modern setting where Peter and Anne meets and they sing about love by the river.

STARS

Music and Words by Adrain Oh

PETER Look at the stars, How brightly they shine Up in the sky. Think for a while, They're so many miles From where we are. Still I'll reach out, There's no stopping me, I want to know Just what it is That makes the world The way it is.

HO & Hsu We did our best, please, just set us free! Mercy, mercy, mercy!

EMPEROR Love of the sun - so it has come, What is done can never be undone....

EMPEROR YAO Such a loss of face, Brought me disgrace!

EMPEROR This is their best, They deserve the rest!

EMPEROR YAO And your heads I'll have them Both displaced!

PETER Each time I look at the stars, I realize just how small we are.

ANNE (Stars light our way tonight) Each time I look at the stars I feel you're there with me Up amongst the stars Of our destinies.

I LIKE YOUR MIND

Music & Words by Desmond Moey & Kenneth Lye

PETER Please stay a while, and hear my plea; It's not my style but can't you see I need to know if you feel for me... For all I am is in my mind.

ANNE You touch my heart with how you think That's where we start - of love we sing! I feel the warmth of the moonlit night I think I do, I like your mind.

PETER Love - the sweetest time for me

ANNE (Love, you and me, yes, it's love I'm in love so deeply)

PETER You're my love - stay by my side

ANNE (By your side, I'd stay)

PETER Till the end of all eternity...

PETER (Till the end, all eternity)

ANNE You're my joy, you are my pride! PETER (You're my love, you are my pride!)

PETER Has one defined how love begins? It intertwines the thoughts within?

PETER & ANNE Can we be sure of the way we feel? Are you in love - what's in your mind?

So deep in love, nothing more to find I know I do, I like your mind... I know I do, I like your mind.

A comical scene where Aristotle is doing a rap with his students and discussing the issue of how the universe began.

ARIS

Music and Words by Adrain Oh

CHORUS His name is Aris (Aris), Yeah great ol' Aristotle, The only one who can solve any riddle. He is Aris (Aris), yeah great ol' Aristotle, And there ain't no question That he can't answer.

ARIS Good morn'g everybody, Now listen to this, Today I'm gonna rap What I wrote in my thesis. Those who may have read Will know it is endless, This Universe we live in, In time and space is boundless.

CHORUS Uh!

ARIS Are you mad? CHORUS Brain gone bad?

CHORUS His name is Aris (Aris), Yeah great ol' Aristotle, The only one who can solve any riddle. He is Aris (Aris), yeah great ol' Aristotle, And there ain't no question That he can't answer.

ARIS So you over there, What do you think of this?

CHORUS Does that mean great Aristotle, No beginning there is?

ARIS Correct, Egad, I'm glad ya know that, He who dares differ must surely be mad.

Time is a river, Step into the river of time. Look up at the quintessence, Perfect circle, No beginning, no end.

Heracitus, so tell us, CHORUS What is your conclusion?

ARIS Tween time and space, CHORUS What is the correlation?

HERACLITUS Sir, if you say that time Has no start, no end, I'm afraid on both counts, What you say you can't defend.

CHORUS Uh!

ARIS Are you mad? CHORUS Brain gone bad?

ARIS Are you crazy? CHORUS Sheer audacity! Nobody dares to refute great Aris.

ARIS For curiosity's sake, what start had you in mind?

HERACLITUS Big Bang, an explosion Of the mightiest kind!

ARIS Well, I'm sorry Heraclitus, Though you think you're really bright, You don't seriously think That they will buy this nonsense, right? Just to think, an explosion, Was how it all began, Surely you jest, About your theory - Big Bang!

CHORUS His name is Aris (Aris), Yeah great ol' Aristotle, The only one who can solve any riddle. He is Aris (Aris), yeah great ol' Aristotle, And there ain't no question That he can't answer.

ARIS So you see Heraclitus, Who really has the clout, Coz, unlike you, I know what I'm talking about. You may ask me what it is That they all respect me for, So I tell ya, you've got to Get much more rapport.

CHORUS His name is Aris! His name is Aris! His name is Aris! His name is Aris!

Peter Morris disagrees with his Professor about the beginning of the universe.

STEADY STATE

Music and Words by Kenneth Lye & Desmond Moey

STUDENTS Year after year, we hear the stories; Is there a truth which can set us free? When will we ever Come to terms with reality And who'd make it plain for all to see?

BOYLE No clear beginning, it's isotropic; No set direction - was what it is. And homogenous; we can demonstrate... The Universe is a Steady State!

PETER MORRIS Sir, don't be so hasty, There is something amiss; I can show that the heavens Wasn't just like this. From equations by Friedman, overlooked by Einstein All conclude there's a starting with a great big bang!

BOYLE You, Peter Morris, and Robert Perry, You'd never fathom the mystery. No clear beginning, there's no final date The Universe is a Steady State!

PETER MORRIS Wait and see, believe in me; And open up your minds. Let it start from your heart, And the truth you'll find!

STUDENTS Year after year, we hear the stories; Is there a truth which can set us free?

When will we ever Come to terms with reality Who'd make it plain for all to see?

Anne sings about how Peter loves her while Patricia cautions her.

HE THINKS OF ME

Music & Lyrics by Desmond Moey & Kenneth Lye

ANNE I feel a glow within my heart. We'd never want to be apart, Now and forever, full of hope, so free I know his mind, he thinks of me...

ANNE Love - a special kind of thing; PATRICIA Are you in love or are you...

ANNE
I can feel deep in my heart.
PATRICIA
Well it seems, my dear,
You are so blind with love!

ANNE
Makes you laugh, and it can make you
Cry when things don't work out!

PATRICIA
The very thing you have,
May one day make you sad...

ANNE
This is love – we are in love!
PATRICIA
But never mind tomorrow – in love!

ANNE
The sweetest days are here to stay,
PATRICIA
You seem to have it all, dear!

ANNE
I like his mind, I like his ways.
PATRICIA
Enjoy the happy years...

ANNE
This is the man who will hold me
Tenderly...
PATRICIA
Just hold his hand, walk by his side,
And always lift him up....

ANNE
I know his mind, he thinks of me;
PATRICIA
.... his mind, he thinks of me;

ANNE
I know his mind, he thinks of me.
PATRICIA
I know his mind, he thinks of me.

A farcical scene where Isaac argues with his mother and inadvertently discovers gravity.

HAIR NEWTON!

Music & Words by Kenneth Lyen & Desmond Moey

ISAAC
Oh, dearest Mother Newton,
Why this fuss and why the noise?
Why are these people coming here
To rock my equipoise!
This world is ordered and created
With a master plan
I can't be bothered now with fish or fowl
In your frying pan!

MOTHER
So, dear Master Newton,
You think you know it all.
You'll feel the weight upon your head
When this falls!

If you don't come this minute,
I'll box you on your ears.
Now move this way, and don't delay,
Stand here!

CHORUS
Hail! Isaac Newton we're here today;
Show us some grace, some face,
So please, come this way!

ISAAC
It's unnerving, so disturbing!
Why don't you let me be?
MOTHER
Food is serving,
Don't keep on squirming!

ISAAC & MOTHER
Under the apple tree!

ISAAC
Ouch!
Help me, dearest Mother,
I'm a reeling from the shock;
But something great is happening and
It must be from the knock!
A technicality but this is true originality!
The fundamental truth
I've found the basic law of gravity!

CHORUS
Come! Isaac Newton, we must begin.
It's getting late, can't wait
We're rumbling within!

MOTHER
Well now, Isaac Newton!
Your guests can wait no more;
Just stop your jokes,
Appease these folks, before
They get tired and hungry
They want the fish and fowl...
Now do your part, let dinner
Start right now!

Chorus
Oh! Isaac Newton! We're waiting still!
Your work is good and great
But we must be filled!

ISAAC
I think I've got the constants,
And I know the very reasons;
How planetary motions
Set the stage for all the seasons!

MOTHER
Wonderful, amazing,
How an apple shakes your brain;
So will you come and join us
Must I say it again!
Get rid of that apple,
Don't let it spoil our time
Of feasting and rejoicing
Through the night!

ISAAC
You know me not, my work is all my life;
The fish, the fowl, I'm full somehow,
forget it... good-bye!

CHORUS
Rats! Isaac Newton – he's simply mad!
He does his work – and us
Our dinner goes bad!

Peter Morris is told of the disease which would kill him very soon.

IS THIS THE END?

Music and Words by Kenneth Lyen & Desmond Moey

PETER MORRIS
Is this the end? When will it be?
And deep within it hurts.
But then again, why only me?
Alone, what misery!

Silently, the moments pass me by;
Quietly, the fear, it grows inside.
All the pleasures, and all the laughter,
Joy of living — denied!

Is this the end? How will it be?
The world, it seems so dark.
But then again, why only me?
My calamity!

Oh, how silly, why should it bother me?
I might live till I'm way past seventy!
I will relish the sweetness of the day
As I make the best...
Of all that come my way!

Is this the end? Why must it be?
This life — it's so unfair.
How can it be, why only me?
Is this my destiny?

©1995 Rainbow Music & Serendip Productions

TILL THE END

Music and Lyrics by Kenneth Lyen & Desmond Moey

ANNE
There'll be a way,
You must not give up;
You shall be determined
To use the strength within.

©1995 Rainbow Music & Serendip Productions

Think of all the people
How they made it still!

We all have a right
The odds are on your side!

PETER
Here I am, losing all my hopes
I'll never make it through!

ANNE
No, think for a moment,
How they made it still;
All you want to do
Your mind can see you through!

PETER
How far can I go?
What lies beyond the night?
With you by my side,
I'll give it one last fight!

Now I feel I can carry on
I'll reach for all my dreams!

Dreams of the beginning,
What lies beyond the stars...
PETER & ANNE
Let's go, let us fly
Into the starlit sky!

PETER
I know I can reach it!
My heart's full of hope.
I'll meet the test
It'll be my lifelong quest!

PETER & ANNE
Time waits for no man.
We must not delay!
Maybe there's a plan
We'll make it till the end...!

Act 2

A song and dance number where Einstein appears.

RELATIVITY EXPRESS

Music and Words by Desmond Moey & Kenneth Lyen

CHORUS
Chute Choo ...
Choo choo choo choo choo ...
Light years away, some other world,
Time holds no bounds,
So we've been told.

The Milky Way, the shooting stars,
The beams of light that come from afar...
And here we go a spinning
Round and round! (Choo...)

Dance to the rhythm
Of a new, exciting beat (yeah, keep on!)
Space algorithms, feel the heat...
(Off the seat and on your feet!)

Chute choo choo choo choo...
Chute choo choo choo...

Light years away, some other world,
Time holds no bounds,
So we've been told.
The Milky Way, the shooting stars,
The beams of light that come from afar...
And here we go a spinning
Round and round! (Choo...)

Dance to the rhythm
Of a new, exciting beat (yeah, keep on!)
Space algorithms, feel the heat...
(Off the seat and on your feet!)

Ride through the waves
Relativity at play.
Quantums of light
Energise through the day!

Chute choo choo choo choo...
Wow, wow, wou...
Choo choo choo choo...

From now on it's greatness
Never will it stop!

We are the glory,
The eighth wonder of the world;
We have the treasures
Of knowledge and truth!
All in our minds — yes,
We are absolutely right,
We are the way, axiomatically,
The light!
Ah.....Dadadada..... the light!

Ah.....ka-Pow!

Peter is accepted as part of the elite in the academic world.

THIS IS THE END

Music and Words by Kenneth Lyen & Desmond Moey

PETER MORRIS
Suddenly, I feel the glow inside;
Anxiously, I'd hope for this tonight.
All the pleasures, things to discover,
Joy of finding — it's mine!

CHORUS
We are the glory,
The eighth wonder of the world;
We have the treasures
Of knowledge and truth!
All in our minds — yes,
We are absolutely right,
We are the way, axiomatically,
The light!

Peter, you are a master —
We are all masters too.
And, how the masses want to lap up
Ideas from us and you.

Truth is truth,
We define what truth shall be;
What's reality?
In our books they will see.
Yes, my friend,
You have made it to the top;

Is this the end? No more to know...
Why things should rise or fall...
This is the end, and curtains close,
Oh yes, I have it all....

The marriage breaks down and Anne laments in her song.

I NEED YOUR LOVE

Music & Words by Desmond Moey & Kenneth Lyen

ANNE
Another year slips by,
I'm left alone to cry.

Seems it doesn't matter
Like everything's just fine.
Friends were here tonight,
Wished you were by my side.
I'm yearning for the moments,
We spent by the firelight...

Your tender love and your smile...
I miss so much;
Longing for your touch
(Your kiss, you held me tight).
The lonely night feels so cold,
You'd never know —
I need your love!

Once, everything was sweet,
Now by myself I sleep.
There was no hope, no future;
But now my heart bleeds!

Your tender love and your smile...
I miss so much;
Longing for your touch
(Your kiss, you held me tight).
The lonely night feels so cold, you'd
never know —
I need your love!

Though we are apart,
You're still in my heart...
The memories of love; just you and me.
What's come between our love!

Your tender love and your smile...
I miss so much;
Longing for your touch
(Your kiss, you held me tight).
The lonely night feels so cold,
You'd never know —
I need your love!

Such a fool,
To need you,
But I do...

Peter feels that he has lost everything.

I HAD IT ALL

Music and Words by Kenneth Lyen & Desmond Moey

PETER MORRIS
The world within my two hands;
It wasn't long ago.
To do my work at Oxford;
Nothing's beyond my hold.
I worked on quarks and leptons,
Quasars and black holes too;
I had it all — the cosmos
I knew what's left to know!

Then came the blow — so sudden;
Perhaps just two short years.
Our love could last forever,
Tomorrow's so unclear.
But Anne, my love, my darling,
All of herself she'd give;
She helped me through my trials,
Gave me the strength to live!

But life just slipped away,
Alone and sad each day.
Not even Anne could help me,
No one for me my fears away.
No one to chase my blues away...

If I can find the answer,
The law that binds the world.
There'll be no pain, no sorrow,
Solutions I'll propose.
The missing link so vital,
I'll have it in my hands...
I had it all, this glory,
But will it simply end?

Now life has slipped away,
For Anne, she would not stay.
Nobody else can help me,
No one for me my fears away,
I had it all — it's gone away...!

GONNA MAKE IT A BETTER DAY

Music and Words by Desmond Moey & Kenneth Lyen

THE COMPANY
Goodness me! Big disgrace,
Solar eclipse has taken place;
His name is Aris, Aris
Yeah, great ol' Aristotle,
The only who can solve any riddle.
Guilty, guilty, guilty, guilty, guilty,
Guilty...
Hail! Isaac Newton!
Choo choo choo choo.
Choo choo choo choo!

Light... Strong-er...
Bright... Fi-re...
Stars... Yon-der...
Soar... High-er!

Come on up! We are movin' on;
Jour-ney up to the far, and the beyond.
Gonna reach for my hopes and dreams,
Gonna reach for the gem deep within!
Way out! Sha-La!
North, South? Which way to choose?
East, West? Get up — no time to lose!

Leave behind all your wretched past;
Gonna make it this time, it's gonna last!
Make tomorrow a better day,
Set the future a-glow, come what may.
Way out! Sha-La!
Up, Down? Which way to choose?
Left, Right? Get up — no time to lose!

Light... Strong-er...
Gonna make it a better day;
Gonna chase all the blues away;

Bright... Fi-re...
Gonna live out the plans I say;
Gonna get it — I'm here to stay!
(Wo-o-oh!)

Stars... Yon-der...
Gonna make it a better day;
Gonna chase all my blues away;

Soar... High-er!
I'm gonna live out the plans I say...

Way out! Sha-La!
Up, Down? Which way to choose?
Left, Right? Get up — no time to lose!
Way out! Sha-La!
Up, Down? Which way to choose?
Left, Right? Get up — no time to lose!
Way out! Sha-La!
North, South?
Now which way to choose?
East, West? Get up — no time to lose!
