

# Shooting Stars

ORIGINAL SOUNDTRACK

## 1st

Taufik

written by ken lim, produced and arranged by joshua wan

You taught me to be strong  
Showed me what is right From wrong  
Never left me on my own

Always by my side  
Each time I needed strength  
Never Failed to understand

### Bridge

No one will ever be  
The angel you are to me  
Everything I have points to you

### Chorus

I'm 1st on your mind  
Each and every time  
What more can I ask  
You've done your very best  
I'm 1st in all you do  
I'm complete because of you  
There's so much that I must do  
To live my dreams For you

You taught me to be wise  
Showed how to do things right  
Never once you left me blind

Always brought me hopes  
Each time when I am down  
Never thought about yourself

## There with you

Sly

written and produced by ken lim, arranged by adam lee

All this time while you're with me, I've been in the dark  
Didn't think For the life of me You would do me wrong

We had it all but you chose not to know  
You always knew my heart was home

Now we know I'm not who you want I should let you go

### Chorus

I've loved you with your disguise  
You've proven that love is blind  
There are no answers I find  
To stop the tears From my eyes  
Now everything looks black and white  
You've taken away clear blue skies  
Though it is time to go  
I know my heart has always been  
And will be there with you

All this time while I'm true to you  
You turned and looked away  
There just wasn't any signs that says  
You're only passing through

I'll close my eyes to forget our times  
I can't restrain you from your lies

The Fear of ever losing you  
Has Finally come true

## Paper

Daphne

written by daphne, produced by derek zurarte and arranged by adam lee

Reflections on the water  
I share with you on my blank paper  
Call out your name as if I don't know you  
Or I've had you replaced

Were you real and were you here  
What's this feeling that I fear  
Open up and make things clear  
Did you love me

**Chorus**

Screaming aloud won't help  
But it makes me feel better  
Nothing compares to this  
Why are we still here shouldn't we have moved  
But still we stay, I cannot be with you  
Let me go

The scars upon your head pierce through my soul  
Yet I can't love you  
The way that you love me  
Why can't you see that  
like this we won't last

Trust me we will be just fine  
Let go of these  
Feelings you feel inside  
I know in just a matter of time  
We'll be fine

**Chorus**

Were you real  
And were you here  
What is this feeling that I fear

**Chorus #2**

## A better me

Olinda

written by Olinda and Jillian-Marie Thomas  
produced by yang and arranged by adam lee

Got out of bed and I just made up my mind  
That I am doing something about my life  
Can't sit here dreaming of what it would be like  
I'm just really going out of my mind  
Oh god please help me cos I don't have a clue  
I know that things don't happen out of the blue  
Time for some changes  
No matter what it takes I will do

**Chorus**

For the longest time I've waited to see  
If I could be that better me  
It's time to step up to what I believe  
No more holding back on what I could be  
But if I have to choose at all  
There's one thing I know for sure  
All I know is I like what I see

Oh for the longest time I've waited to see  
If I could be that better me  
It's time to step up to what I believe  
No more holding back on what I could be  
But if I have to choose at all there's  
one thing I know for sure  
I stop dreaming and hoping and  
Wondering and wishing and  
Dreaming and hoping and  
Wondering what I could be

COMPETITION 2005

## After the Fire

jeassea

written and produced by ken lim, arranged by adam lee

The truth in me that I've never seen  
Was finally unveiled  
Now I'm doing everything I can  
To win you back once again

I can't imagine  
What I will be without you  
I'll take the pain that I've given you  
If only I could

### Chorus

After the fire  
Your love is all I see  
There is nothing that compares to you  
Nothing as real  
I hurt you so but I know I must find  
A way right back to your arms  
I'll do my all to  
Love you like I should

What's in a life when you lose someone  
That makes you feel alive  
I know it's late to realize  
I know I can only try

Give me a chance to prove  
I'll change my all just for you  
There is nothing else that I would rather do  
Everything is you

## Shooting Stars

Taufik, Sly, Jeassea, Daphne and Ohnda  
written by ken lim, produced and arranged by joshua wan

Reach for what you wish for  
Bring on special moments  
Stars will shine upon the dreams  
You live for everyday

The world is waiting for you  
Your heart will always guide you  
Don't be afraid to fall

### Bridge

There's always roads  
That leads you where you want to be  
Try your very best and you will see

### Chorus

Believe in what you stand for  
Holding on your reasons  
The stars above  
Will always be your guiding light  
Never lose your heaven  
Dreams do come true  
When you wish upon a star

Taking on your chances  
Faith is all that matters  
There is nothing that you  
can't do if you stay on strong

Time will take you places  
Where dreams are only made of  
Be true to all you do
