OF PASSION & PASSAGES

in celebration of Keppel Corporation's 40th Anniversary

Celebrating 40 Years of Growth

With roots in Singapore, Keppel Corporation's 40-year history has seen the company grow from a shiprepair yard in 1968 into a globally diversified group with a 32,000-strong workforce in 34 countries. Even as the Company continues to grow globally, it remains steadfast to its corporate principles of Sustaining Growth, Empowering Lives and Nurturing Communities.

Through the years, Keppel Corporation has been involved in the development of the arts in Singapore, and has provided numerous platforms to showcase local talent and artistes. Making its international debut at Keppel Corporation's 40th Anniversary Concert on 19 August 2008 was *Of Passion & Passages*, a symphonic work by Singaporean composer Dr. Ho Chee Kong.

This recording is especially dedicated to our past and present Boards of Directors, Senior Management, and staff whom we call Keppelites, for their commitment and valuable contributions through the past 40 years. As we prepare ourselves to grow beyond, Keppel shall continue to draw strength from and contribute to our nation's peace, development and prosperity.

Of Passion & Passages

Commissioned by Keppel Corporation to mark its 40th Anniversary, *Of Passion & Passages* echoes the voyage of the Company since its founding 40 years ago. Keppel Corporation's journey mirrors Singapore's growth and determination to forge a future through changing tides and challenges.

The piece draws its inspiration from the resilient and enterprising spirit of Keppelites. It celebrates their tenacity, quiet strength and moral courage, and crescendos in a sense of excitement and anticipation for the future.

"It celebrates the human spirit and passion of Keppel Corporation. There are elements of grandeur, excitement and adventure. There are also moments of poignancy. The music tries to capture portraits or snapshots of what the Company has gone through."

40 Years of Growth

"Can Do!" Overture

The inspiration for the "Can Do!" Overture came from the many years during which the composer has been closely associated with the Keppel Group, and from observing the "Can Do!" spirit which he has seen Keppelites at every level demonstrate – the spirit which has brought Keppel to its leading position today. This is why the "Can Do!" Overture is dedicated to all Keppelites and especially to those with whom he has had the privilege of working, and who have become his good friends and colleagues.

The Overture tries to put into musical form what the "Can Do!" spirit of Keppel means - confidence, determination, and never saying die even under the most difficult and trying circumstances. The middle section of the Overture also shows that the "Can Do!" spirit is not just serious and grim, but that this spirit enables Keppelites to hold their heads up high and celebrate their successes joyously!

"The positive response of the audience and Keppelites at the Overture's surprise premiere was very moving. I am most happy to have contributed in a small way to Keppel Corporation's 40th Anniversary celebrations as a member of the Keppel Family."
