SOME THINGS SHOULD CHANGE
- Tanya Chua

You'd be sad if you read the news of today
Cos' it's gone and the crimes still getting all the headlines
You'd be wondering what went wrong for
it to turn out that way, out that way
You would hate in the shadows
Away from the real cos' you know only
only the pretty girls deserve the best
Who in the world, made the rules that
we should live that way, feel that way

C:
I wake up in the morning feeling down
Don't know what to do cos' I know I can't hide
I think I might have fallen for you
I wanna pick up all the pieces I left behind and
Put them together and make things right
All I ever want is to be with you

You're the first one I see when I get up
And the last one I see at the end of your session
Cos' you should know know better
That it has always been that way, been that way
You remember the past
The shimmering, the screaming of your parents
And so you stop believing in love
And you think it's okay but it doesn't
have to be that way, be that way

C:
I think it's time some things should change
It doesn't have to be that way
I think it's time some things should change
It doesn't have to be that way

HOW I FEEL
- Shayn Phua

The lights are out
Its time for bed
People sleeping while I'm awake
Can't seem to get you out of my mind again

The moon is out with me tonight
We're drinking coffee in the middle of the night
I wish I could tell you how I feel inside

C:
I wake up in the morning feeling down
Don't know what to do cos' I know I can't hide
I think I might have fallen for you
I wanna pick up all the pieces I left behind and
Put them together and make things right
All I ever want is to be with you

I'm walking down the streets again
Look at the couples hand in hand
I wonder if I would ever hold your hand

I really don't know
Can you help me out
Because you know I can't do it alone
I wonder if we were ever more than friends

C:
I wake up in the morning feeling down
Don't know what to do cos' I know I can't hide
I think I might have fallen for you
I wanna pick up all the pieces I left behind and
Put them together and make things right
All I ever want is to be with you

I wish I knew
I wish I could...pick up the phone tonight
And tell you how I feel deep inside
I wake up in the morning feeling down
Don't know what to do cos' I know I can't hide
I think I might have fallen for you
I wanna pick up all the pieces I left behind and
Put them together and make things right
All I ever want is to be with you
All I ever want is to be with you

IT'S YOUR CHANCE
- Tanya Chua

Have you thought it over?
Have you gotten what you deserve
Was it all your shoulders
Were you relieved to know that everything worked out?

Have you gotten over
Have you started a brand new life
Have you met somebody
Someone who's ordinary
Someone unlike me

C:
"Cos now its your chance
To do what you wanna do
There's no time to waste
The day is still young
The world waits for no one
What are you waiting for?"

Have you thought it over?
Have you gotten what you deserve
Was it all your shoulders
Were you relieved to know that everything worked out?

Have you gotten over
Have you started a brand new life
Have you met somebody
Someone who's ordinary
Someone unlike me

C:
"Cos now its your chance
To do what you wanna do
There's no time to waste
The day is still young
The world waits for no one
What are you waiting for?"

I wish I knew
I wish I could...pick up the phone tonight
And tell you how I feel deep inside
I wake up in the morning feeling down
Don't know what to do cos' I know I can't hide
I think I might have fallen for you
I wanna pick up all the pieces I left behind and
Put them together and make things right
All I ever want is to be with you
All I ever want is to be with you

I'LL REMEMBER YOU
- Tanya Chua

Sorry wasn't good enough
A song without melody and rhyme
A long forgotten promise I recall I made to you
A candle flame dies in the wind
It looks like it's about to rain, about to rain

Sprays from your cigarette
Fragrant cologne on my pillow
Memories you left me still ring like some melody
Faded pictures on the wall
Hopes as we will rise and fall, rise and fall

And in the rain, in summer days too
Under the willow tree weeps too
Under the street light so bright
I'll remember you everyday

The plane leaves in an hour's time
Light me till our last goodbye
Silence is the only sound
No words can speak it this
I'll breathe your breath for one last time
You'll be strong and so will I, so will I

C:
And in the rain, in summer days too
When the willow tree weeps too
Under the street lights, so bright
I'll remember you everyday

C:
And in the rain, in summer days too
When the willow tree weeps too
Under the street lights, so bright
I'll remember you everyday

I'll remember you everyday
I'll remember you everyday

Your love is like a grand illusion
Your love is my dark fascination
Your love is my new deconstruction
Your love shall be my resurrection

FIGHT CLUB (RESURRECT VERSION)
- Stoned Revivals

Your love is like a revolution
Your love is my hallucination
Your love is like an open canyon
Your love will lead to my destruction

Your love is like a grand illusion
Your love is my dark fascination
Your love is my new deconstruction
Your love shall be my resurrection

Hum... I I

Your love is my soul Resurrection
Your love is my anticipation
Your love shall lead a revolution
Your love shall be my resurrection

Your love is like a grand illusion
Your love is my dark fascination
Your love is my new deconstruction
Your love shall be my resurrection

(break)

Repeat all...

SHOOTING SOUL
- Annabelle Francis

The music's clear
The light is waning
A haze drawing near
And my mood enslaving

The smell is sweet
The spirits are high
The giggles in my heart
In my sleepless bed I lie

chorus
I'm gonna embrace your shooting soul
On this clear and blissful night
I'm gonna embrace your shooting soul
On account it would be mine
A shooting shooting soul...if you

I'm sitting at my window
The night is slow
The sky is a long velvet place
and I'm waiting for a glow

My eyes will soon be blind
My fingers will be burnt
My heart's a heaven's gate
In a place I've been

chorus

1st B: (hook) heart
Embracing moments that you and I share
From the past to the present
Without a doubt to our fate
Like a hairstyle, let's make it happen, let's
To a happy ever after

Laughter
In the lights of being together
Making it last throughout stormy weather
Heather to the future you and me
Cos' lady, it's our anniversary

My eyes will soon be blind
My fingers will be burnt
My heart's a heaven's gate
In a place I've been

chorus

The end...thank you

Annabelle Francis
