BETTER WORLD

travelling down the freeway  
you wanna fly high  
hearing that motor running  
brother, you hit the road  
hold on, just think one minute  
c'mon don't be hasty  
think about the guys next to you  
remember, you're not alone  
all the things that you hear about in the news  
oh yeah  
it's reality hitting right back  
what a shame yeah

\* it's time, it's time that we know  
join in, together we'll make a better world  
safer for the young and the old

\*\* beware, be careful, be smart  
join in, together we'll make a better world  
better world, for you and me

people have fallen prey to  
too careless drivers  
why can't they be more caring  
thinking like they own the road

no need to be so reckless  
and let's not get hasty  
danger's round the corner  
if you just don't care  
all the hustle and bustle of the crowd  
gets you down  
oh yeah  
there's no reason to push or  
to chase all around, yeah  
repeat \*

give way when crossing the street  
give way to people, disabled or the weak  
or whoever's passing along

repeat \* and \*\*

lead vocals: douglas oliveiro  
music: bani farook

way out there you're on your own  
be sure of the way that you choose  
if you're going to drive, don't drink, at all  
coz when you do it's easier to lose  
repeat \*, repeat c/o \*

there's so much we try to do  
trying to push ourselves too far  
if we only remember what life is about  
we'll realise, it's all the same  
just like wheels are turning around and round  
repeat c/o

vocals: maizurah hamzah  
backup vocals: maizurah, iskandar j., jetri brown  
music: maizurah

all programming, arrangement: goh kheng long

DRIVE SAFE

it's so easy losing ourselves  
demands of these modern times  
new age pace is a high tech race  
well, danger's right down the line  
it's so easy finding ourselves  
bewildered by the changes today  
better be safe, don't you agree  
the risk is high so drive carefully  
\*keep to your space, go for the safer place  
one big mistake and you're history

c/o:  
bad attitude, it comes to intrude  
you start to wonder what the world's coming to  
but keep your cool, don't be the fool now  
it is time for playing the rules right  
drive safe you're in control

GREEN FOR GO

follow the road ahead  
remember to be aware  
of colours like red and yellow  
the green walking man means go  
strolling along is fun  
especially with friends in hand  
while crossing the streets together  
the green walking man means go  
and there's a bridge  
the overhead bridge  
it's made there for you and me  
don't hesitate to appreciate  
the bridge is the safe place to be  
read all the signs  
look out for the lines  
you know that's the best thing to do  
remember to wait  
coz it's never too late  
the green walking man means go  
vocals: robert fernando  
music: farid ali  
words: babes conde  
guitar: bani farook  
all programming, arrangement: goh kheng long

SAFE FROM THE START

all through the day  
people rush the street in cities to get by  
when will they ever learn and start  
to realise  
all it takes is one careless moment gone so fast  
someone gets hurt real bad  
loved ones would be so sad

\* take your time  
when you cross the street  
please be wary, don't just hurry

\*\* when you walk the street  
you have to bear the heat  
patience is what you need  
look before you cross dear lives could be lost  
always be alert, be on your guard  
let's be safe right from the start

safety's the key  
use the crossings that are meant for you and me  
it's the surest way to get across  
green is for go, if you want to get there safely  
don't you know  
let's all appreciate the green man is never late  
repeat \* and \*\*

use the bridge it's safe  
it's always there for you  
like a rainbow in the sky  
look before you cross dear lives could be lost  
always be alert, be on your guard  
let's be safe right from the start

BE SMART, BE COOL, BE CAREFUL

when you start the day  
in your special way  
cherish every moment and time  
not too long ago  
never is the same  
from the other day or right now  
one never know what's yet to come  
just a forecast of the weather  
we get along from day to day  
feeling fancy free and easy  
and like the song that bobby wrote  
don't you worry just be happy  
listen to me (that's why i sing this song)

RAP  
pedestrians crossing the streets now  
take care let me show you how  
you look to the left, you look to the right  
dressing up brightly when at night  
be careful, be smart, and do be cool  
we don't want the road to turn  
into a pool of blood  
yeah!  
mothers cry, another child dies  
and we don't even know why  
there are signs to follow  
use them kids, or there's no tomorrow  
every single rule  
is a special tool  
read it, use it in every way  
whether rain or shine  
always keep in mind  
look before you cross  
and don't rush

one's never sure of what's to come  
here today or gone tomorrow  
we move along from day to day  
whether filled with joy or sorrow  
and like the song that bobby wrote  
don't you worry just be happy  
listen to me, that's why i sing this song

RAP  
that is my message listen good  
and spread it round this neighbourhood  
safety first keep it that way  
follow the rules and live another day  
i design this rhyme to stick in your mind  
just be careful yo! everything will be fine  
a lot of accidents occur today  
just because pedestrians want  
things their own way  
back to basics before another hitch  
don't take a chance use the overhead bridge  
traffic lights are around everywhere  
walk when the green man says ah yeah!  
rules and regulations for every occupation  
anticipation for a safely nation  
be cool, be careful, and do be smart  
teach it to the young, let them make a start
