## Better World

Our earth is sighing, crying, disappearing away  
Here we are fighting, lying and cheating away  
Our children praying, waiting, saying today  
Our dreams are fading... failing

Don't you know we've got to see and grow?  
Don't you know we've got to feel and know,  
touch and show

The flowers are trying, fighting but dying away  
Here we are faking, making and taking away  
We should be thinking, meeting and paving the way  
Instead we're feasting, wasting and throwing away

You and me must tell she and he  
To let him and he strive for a better world today

### CHORUS

We need a better world (She's crying, she's dying)  
We need a better world (Stop fighting and lying)  
We need a better world (Start praying and saying)  
We need a better world...

The skies are crying, sighing, reminding today  
The Gods are waving, craving to show us the way  
We should be guiding, inspiring and shaping the clay  
Instead we're shaking, breaking this beautiful day

*(repeat bridge to chorus)*

## (Why Can't We?) Love Each Other

If you had some time to talk to me  
I'd sit right down and talk to you  
And tell ya what I'm going thru in  
this life

You see, I'm such a simple man  
Who has a really simple plan  
But have some really big  
demands now in this life

### CHORUS

Why can't we live together  
Don't tell me 'bout our colour  
Why can't we just look further  
Why can't we love each other  
*(repeat chorus twice)*

And just because they speak in  
an accent  
That you cannot comprehend  
You think they'll never understand  
a word that you say

And every time you watch  
the news  
You see some people having  
to choose  
To carry guns and protect  
themselves  
And I say...

*(chorus)*

## The Heart

How do we make time to stay together?  
How do we make time, in all kinds of weather?  
You try your best, you just can't win  
You never know where to begin

So often we take time, to find our weakness  
And never do we find, the strength within us  
We try to live life as we know  
We hide our heart when it wants to show

### CHORUS

The heart breaks down and cries  
Then we make up some old reason just to lie  
And the love will fade and die  
If we're gonna let the seasons pass us by

If only the right words, were always spoken  
We'll only move forward, it'll never be broken  
So one more chance, we will re-do  
(love will renew)  
It means so much to me and you

### 2ND CHORUS

So don't give up this fight  
We're gonna see forever if we try  
Our love will reach the sky  
We're gonna watch the seasons, you and I

## This Time

I had enough of myself walking straight  
into walls  
Had enough of it all, taking the fall  
Had enough of the talk, quietly taking  
the walk  
Had enough of it all

\* I had enough of the people that take  
away my fire  
Far too many, I felt, let me down  
Every time I saw a prize that I could win  
That's the time I lose control

Why? Doesn't anyone hear my cry?  
It's gonna change cuz now I'm ready to fly

### CHORUS

This time I'm gonna make it happen  
This time I'm gonna get it right  
This time I'm gonna make it better  
This time I'm gonna love me right

All the while I thought that they were  
looking out for me  
They always told me it was for free  
I realised that they were making use of me  
Had enough of it all

(\*) (chorus)

# Everything's Gonna Be Alright

Open my eyes get out of bed what's  
In store for me?  
I reach for my Jeans to grab my  
cigarettes to go with my coffee  
Turn on my facebook look for my  
friends to see what they're doing  
Pick up my phone who do I call...  
For things to get moving... gotta  
get moving

I grab my newspaper flip the pages  
what's in store for me?  
The news of the world with people and  
places and the obituary  
Pick up the phone start texting my  
friends to see if they miss me  
Take a deep breath and say to myself  
everything's gonna be alright...  
you'll see

Everything's gonna be alright you'll see  
Might take a little while but we'll get by  
you'll see  
Everything's gonna be alright you'll see  
Might take a little longer but we'll  
get by...

I grab my guitar to play in a pub  
what's in store for me?  
I love what I do oh what a great  
job to make people happy  
Go to a bar to do some P.R. tell  
some jokes for free  
Take a deep breath and say to  
myself, everything's gonna be  
alright you'll see

The struggles of life or sugar  
and spice what's in store for me  
With people around buzzing up  
and down just like a busy bee  
Should I give up and get a new  
job to keep my sanity  
Just take a deep breath  
and say to myself  
everything's gonna be  
alright, you'll see

# Twenty 4 Seven

I have my ups and downs like many of you  
You're not alone I know it's tough to get through  
Just thought I'd tell you bout this place I know  
(it's) Not 'bout the beer but how the friendship flows  
(Listen up now...)

Naomi took me for a drink one day  
We ended up making some friends, "Hooray!"  
We met a couple who were chilling out  
Thumbs up, smooth sailing, we were messing about

So when it ended, we were sad and blue  
Looked at each other no one had a clue  
Then this sweet lady started screaming out  
I got a place where we can twist and shout...

## CHORUS

Let's go 20-47  
We're gonna feel like heaven  
Just like a secret old tavern  
(And) I'll be there

See Wayne and I we love to kick back a few  
And there's no doubt this groove is sticking like glue  
We never worry when we play to a crowd  
We get the folks up dancing, shaking about

Now here's a lesson in this song for you  
You need to follow what your heart wants to do  
And there'll be times when you just want to get out  
You know that place where you can scream out loud

We get our kicks from many different places  
We've hung around with many famous faces  
So many times, we just can't wait to get out  
Can't wait to hear the words that lady shouts

*(chorus)*

# Live It

That's too much for me,  
I know that it's for free  
Don't take for granted  
We've seen it all before,  
everybody wants more and more  
it's human nature

The rats are racing all about  
Trying to knock each other out  
They're shouting out and  
acting proud  
But deep inside they're crying out

## CHORUS

Take some time to smell  
the coffee  
Take some time to smell  
the flowers  
Take your time to understand it  
Just got ONE life... .. LIVE IT!

I stood outside a door, and there  
across the floor  
A body laying  
Some friends came rushing out,  
to find its whereabouts  
But a spirit straying

I'm sure you've heard it all before  
Things are still happen'ing out  
your door  
We need to reach out for them  
to see  
Just plant a seed and we'll get  
a tree

*(chorus)*
