1991 was indeed a watershed year for Singapore indie music. One of the initiators was the first New School Rock CD which came with the March issue of BigO magazine. For the first time in years, radio listeners were exposed to the sounds that young local bands were creating. The New Wave has arrived and, like it or not, people are talking about it. Eleven exciting months have passed and 1992 looks even more promising. New School Rock II is proof of that. So sit back and remember, you're listening to music Made In Singapore.

New School Rock II was made possible by the kind contribution of major sponsors The Shaw Organisation, Levi's and BMG Pte Ltd. Special thanks also to Coca-Cola, Sony Singapore Pte Ltd which provided the Sony DAT tapes for the recordings, Boniface de Souza of Savoir-Faire Studio, Tim Records, Martyn See, Anthony Tan and Cyril Ng. With the exception of Yesterday's Love (by Eza), all the songs were recorded and mixed at Savoir-Faire Studio over a three-week period in December, 1991.
