I live here in kill city where
The debris meets the sea (2x)
It's a playground for the rich
But it's a loaded gun to me
Can you see the dead and empty souls floating
around,
All grasping at the flying splinters of money
I'm sick of keeping quiet
And I am the wild boy (2x)
If I have to die here, I swear, I swear
I've got to make some noise
One day you'll see the city the way I do
The scene is a fascination and
everything's for free
The scene is a fascination as long as
you have the money
Til you wind up in some court room
Over-charged and on your knees
