

**Title : Money Culture**

**Composer : Case**

**Lyricist : X' Ho**

I'm so precious I have to live in a refurbished house  
I'm so precious I have to drive the loudest of the loud  
Like a Porsche or a Jaguar, Convertible triumph  
Oh all my money can hide my waistline  
Nevermind I am jaded cos money is my life

I'm so precious you'll want to hold me in a high esteem  
But since I'm precious I can only be held by beauty queens  
Or super-models or starlets such as Zoe Tay  
TCS actresses, well not all's okay  
You've got to know how to pick them or  
You'll end up with a flake

Honey don't you get precious with me unless you're real wealthy  
Cos precious is money, it lends credibility  
Know your assets before you open your mouth  
Oh don't you try to stare me down  
I'm the one with the money which makes the world go round  
I'm the one with the money, I fit into this town  
I'm the one with the money so don't you put me down  
I'm the one with the money, I wear the power crown

Welcome to the best money-loving town  
A little big pride in the dollar goes a long long way
