

Title : Notes From An Island (Feat Vocaluptuous)

Composer : Dick Lee

Lyricist : Dick Lee

Living inside the heat
Drowning in lemon tea
Painting pictures of you
Wishing you were here too
In artificial cool
Blinded by swimming pools
I'm mirage-ing it's true
Having visions of you

Lost in a garden filled with souvenir trees
Exploring orchids never seen
This perfect world is meant to set my heart free
And make me wonder where I've been
A dream

CHORUS

Notes from an island
After the quiet
I bring you long awaited news
Guilty of silence
So now I'm flying
Notes from an island straight to you

Pacing the riverside
Wondering what's not right
With this picturesque view
All that's missing is you

Floating in sky-high bars
City too bright for stars
So I'm scanning the streets
If by chance we would meet

This isn't heaven but its still quite a treat
You get perfection for a fee
This sweet scenario's meant to set my heart free
And make me wonder where I've been
A dream

REPEAT CHORUS

After the silence
I'll take you flying
Notes from an island straight to you
