

Title : One (Unplugged Version)

Composer : Hanjin

Lyricist : Hanjin

Everyone is telling us
Everything compelling us
To let it slide
But we would never kick a fuss
We know who we are inside
We will thrive

It's clear in everything that we have said and done
There's nothing in this world that we can't overcome
So put your hands up to the sun
And let me hear you sing this song

Chorus

We are one, Singapore
And we'll always be forever more
Take my hand and together we will soar

We are one, Singapore
(I) know it now more than ever before
This is where I will always call my home
