

**Title : All For You**

**Composer : Dick Lee**

**Lyricist : Dick Lee**

Why don't we vanish together  
Why don't we disappear?  
Running away is the answer to all our hidden fears.  
If only it was so easy, we wouldn't both be here,  
But I've been told, the magic's very near.  
It's all for you.  
Like me it's here, and all for you.

Looking a little bit closer  
Brushing away the tears  
Lady Luck nobody knows her.  
But sorting through the years  
I may have made a connection, it could be you, my dear,  
'Cos I've been told, the magic's very near,  
And all for you  
Like me, it's here, and all for you.

**BRIDGE**

Make me a promise (Anything)  
You will be mine (Everything)  
Didn't I know all this before?  
What is forever? (You and I)  
Where are we now? (Paradise)  
And can we stay here from now on?  
There hasn't been any other, it should be crystal clear,  
Cos don't you know, the magic's very near.  
And all for you  
Like me it's here, and all for you.  
Magic's very near, and all for you,  
Like me it's here, and all for you.
