

**Title : Our World Our Home**

**Composer : Iskandar Ismail**

**Lyricist : Gregory Chen**

When the troubles of all our days  
Veils our dreams in a cloud of grey  
We fly forth a moment or two  
Where visions can hold true

\*Yet the dust from the sands of time  
Can encourage our souls and minds  
For who gave us reason to soar?  
The sum of our peoples before

^If there's no past  
How can we last?  
We are richer for all we know!

**REFRAIN**

There's a world where we want to be  
Where the past and present and future agree  
Built with love and the grace of a home  
We'll have a world of our own  
(Go back to \*, then ^, then alternate refrain)

**ALTERNATE REFRAIN**

There's a world where we want to be  
Where there's joy and peace for a heart  
that is free  
Built with love, even though we may roam  
We'll have a world of our own

(To main refrain hereon)
