

Title : My Little Nephew

Composer : Corrinne May

Lyricist : Corrinne May

It's funny how one thing happens
And it changes your whole point of view
Everything that seemed to matter
Gets cast aside for a better truth

You're growing faster with every
minute, second, photograph
I wish I could spend more time with you
My little nephew

Everyday's a new discovery
I'm a child again, looking through your eyes
With every step you're teaching me
How to fall, cry, get up and smile

You're growing faster with every
minute, second, photograph
I wish I could spend more time with you
My little nephew

But you're far away and I'm over here
Memories are lost in the span of years, so
When I go will you miss me?
When I go will you remember me?

You're growing faster with every
minute, second, photograph
I wish I could spend more time with you
See you learn to tie your shoes,
say the sky is blue
and that your best friend is Winnie the Pooh
My little nephew
