

Title : Transparent

Composer : VerticalRush

Lyricist : Esmond Wee

Rearing your shadows
Across our lives
Do we really know you?
Are you just a lie?

Your mask of deception
An altered perspective
You put on a facade
Stop being something you're not

I thought I knew you
I thought you cared
Selfish desires
All you shared

But your blood runs cold
Like a machine
Aren't you sick and tired?
Of the same, old disease?

Wanna see deep inside
I can't see through your eyes
What's going on in your head?
Stop keeping it in within

Come be transparent with me
