

Title : Fuzzy Valentine (For Ruz)

Composer : X' Ho

Lyricist : X' Ho

Tell me now, tell me what can I do ?
How can I break thru to you ?

The world won't listen
All it wants is just to hear
Hear the roar of sensation
Leave the rest to disappear

(Chorus) :
(So you try) going down the alley way
(Get to the know-how) get to the
Feeling that pays
Before the sun goes down
Before the rain breaks thru
Before the wind sets sail
The clouds envelope you
So you fly away
And you cry for release
And you fall for the arms of your
Fuzzy valentine

(spoken) :
O, I'm deep into this dream of conflicts
Cos when you try to grasp the real
The real turns dead on you

Comin' out of nowhere
This visage of you in the air
Flyin' off into the sky
Brings a thousand deaths to die

(Chorus)

And what a beautiful fall it is
