

Title : Timebomb

Composer : Stomping Ground

Lyricist : Suhaimi

Acres of life shred to the core
Wipe it all out like never before
Nature unnatural tortured to bits
Economic jigsaw one that never fits
Steal from the poor donate the rich
That's the idea you blood sucking leech
Trick of the trade moneys your bait
Closer to countdown don't decide our fate

Timebomb time's running out
Timebomb trapped in this hole
Timebomb nature's revenge
Timebomb death takes its toll

Mercury drowns choking the sea
Powerplant gives free pale energy
Nuclear smiles push comes to shove
One arms the other death from above
Warhead invades mother and child
Ecology erased the end of file

Chorus

Sex on parade Drug conquers all
Passed from another like dead flies they fall
Age catches up to mother earth
Man creates cancerd earth to all births
Hate and greed eats us never slow
Bow down and pray death with one blow
