

Title : Just Tell Me You Love Me

Composer : Mel Ferdinands

Lyricist : Mel Ferdinands

Many time I wished you were here
Through the velvet shadows of my dreams
Many times I wished you were near
Through the darkness as it came but it seems
That you, you never said what I needed to hear

Just tell me you love me
Whisper words I so long to hear
Let this time not to be borrowed
Let it be ours to share
If you tell me you love me
It would lead the way to your heart
Through the mirrors of silence
Love me

Quietly I've waited
For the memory borne of our first kiss
Patiently I've waited
For the moment you would take me to a world
That I, I've never seen that world before

Love me

(I love you)
