

# YOUTH STATION

## I BELIEVE

BY EVERGREEN  
SECONDARY SCHOOL

*Getting chords right  
Getting instruments tight  
While the spotlights shine  
It's gonna be fine*

*Steps to memorise  
With classes that collides  
Steps engraved to my soul  
What we see is our goal*

*The notes, the chords, the melody  
The barriers we've broke through bravely  
The goals ain't hard to meet  
It's time we take the lead*

*It runs through my blood  
My faith and youth  
It's everlasting  
I proudly believe  
It brings on the faith  
We have in you  
It's never ending  
I truly believe*

*We strum the strings  
We hit the beats  
our ribbons flowing  
night and day scripting*

*Steps to memorise  
With classes that collides  
Steps engraved to my soul  
What we see is our goal*

*At times we just need a shoulder to lean  
Get back up as one we try to succeed  
Together as one we hit the beat  
Proving that we're worth believing in*

*In the studio we unleash our potential  
On the stage we try our best without fear  
Behind the scenes we hugged and cried together  
Now we can say music's more than a talent*
