

YOUTH STATION

I BELIEVE

BY EVERGREEN
SECONDARY SCHOOL

*Getting chords right
Getting instruments tight
While the spotlights shine
It's gonna be fine*

*Steps to memorise
With classes that collides
Steps engraved to my soul
What we see is our goal*

*The notes, the chords, the melody
The barriers we've broke through bravely
The goals ain't hard to meet
It's time we take the lead*

*It runs through my blood
My faith and youth
It's everlasting
I proudly believe
It brings on the faith
We have in you
It's never ending
I truly believe*

*We strum the strings
We hit the beats
our ribbons flowing
night and day scripting*

*Steps to memorise
With classes that collides
Steps engraved to my soul
What we see is our goal*

*At times we just need a shoulder to lean
Get back up as one we try to succeed
Together as one we hit the beat
Proving that we're worth believing in*

*In the studio we unleash our potential
On the stage we try our best without fear
Behind the scenes we hugged and cried together
Now we can say music's more than a talent*
