

**Title : Move Along With The Times**

**Composer : Dick Lee**

**Lyricist : Dick Lee**

**DEVI**

We sit around and gripe all day

We really have a lot to say, it's true  
The higher buildings start to rise  
The more we feel we're left behind  
What's new?

Don't you consider it odd  
There's nothing we can afford?  
We'll end up being the ones  
That the future forgot.

Move along with the times  
Go with the flow or be left behind  
Move up with the times  
Open your eyes to open your mind  
Don't do it alone  
Let's go forward together  
Take a ride to a future that's bright  
With a friend by your side  
That friend could be  
Someone like me

We like to grumble and complain  
We see the world through eyes of pain and gloom  
And right before our very eyes  
The city starts to modernize -  
We're doomed!

**BEE**

Look at the state we are in  
In which decade have we been?  
We ought to face the rat race  
All together, begin!

**TENG**

After all this time, I'm through  
Battling it alone  
Had enough of acting tough

All on my own

**DEVI**

Now you find I'm right next door  
Drifting far and fast

**DEVI & BEE**

While you're anchored to  
Your past

**TENG**

Move along with the times

**DEVI & BEE**

Go with the flow or be left behind

**TENG**

Move up with the times

**DEVI & BEE**

Open your eyes to open your mind

**DEVI, BEE & TENG**

Don't do it alone  
Let's go forward together  
Take a ride to a future that's bright  
With a friend by your side

**ALL**

Move along with the times  
Go with the flow or be left behind  
Move up with the times YES!  
Open your eyes to open your mind  
Don't do it alone  
Let's go forward together  
Take a ride to a future that's bright  
With a friend by your side

**DEVI**

That friend could be  
Someone like me

**ALL**

Move along with the times  
Move along with the times  
Move along with the times
