

**Title : Our House**

**Composer : Art Fazil / The Soul Library**

**Lyricist : Art Fazil / The Soul Library**

I want to share my life with you

It's all I want to do

I want to share my life with you

It's all I want to do

I build this house for the two of us

Here we will spend the rest of our lives

The house isn't very big – enough for you, me and the kids

The walls are made of trust, compassion is the roof

The pillars are made of love between me and you

And each time when we love, the house just get stronger

I want to share my life with you

It's all I want to do

I want to share my life with you

It's all I want to do

Outside our little house therein a garden lies

Where stalks of hopes and dreams are kept alive

By the prayers that we say each day of our lives

Let the children sing let them play let them dance

Let their laughter echo through our days and our nights

Someday when they are old enough we'll teach them how to build a house

Like our house

I want to share my life with you

It's all I want to do

I want to share my life with you

It's all I want to do
