

**Title : Let Our Hearts Beat (As One)**

**Composer : Jeff Long / Dulcie Soh**

**Lyricist : Dulcie Soh**

In my heart, there's a dream  
There's a part that believes  
If we know who we are  
We can stand together  
In the face of a test  
We can pass like the rest  
And live in flying colours

What we've got here today  
Were the fruits of the past  
When we work hard today  
Decides our tomorrow  
Don't give up in despair  
Its gonna be all right  
If we keep our dreams in sight

**Chorus**

Build - a nation with our hands  
Hands - a vision in our hearts  
Hearts - with passion in our voice  
Voice - let our hearts beat as one

repeat **Chorus**

Don't forget who you are  
Back at home or afar  
Put a place in your heart  
So you can remember  
Start believin' yourself  
That you can make it right  
Let your conscience be your guide

Lift your head, look up high  
Reach for stars in the sky  
All the good that we have  
Don't you take for granted  
Sow the seeds for the kids  
Like our forefathers did;  
Keep on spinning the wheel of life

**Chorus X2**

**ad lib Chorus**

Everybody, come together  
Good or bad,  
We can face the weather  
Everybody, keep our dreams alive  
Let our hearts beat as one...
