

Title : Safe From The Start

Composer : Bani Farook

Lyricist : Nasri Haron, Robert Fernando

All through the day
People rush the street in cities to get by
When will they ever learn and start to realise
All it takes is one careless moment gone so fast
Someone gets hurt real bad
Loved ones would be so sad

* Take your time
When you cross the street
Please be wary, don't just hurry

** When you walk the street
You have to bear the heat
Patience is what you need
Look before you cross dear lives could be lost
Always be alert, be on your guard
Let's be safe right from the start

Safety's the key
Use the crossings that are meant for you and me
It's the surest way to get across
Green is for go. if you want to get there safely
Don't you know
Let's all appreciate the green man is never late

Repeat * and **

Use the bridge it's safe
It's always there for you
Like a rainbow in the sky
Look before you cross dear lives could be lost
Always be alert, be on your guard
Let's be safe right from the start
