

Title : **Till the End of Time**

Composer : **Christopher Boey**

Lyricist : **Bernice Ang**

V

For so long
We lived in denial
When you know it's wrong
Just awaiting our trial

Love is uncanny
No ifs, ands or buts
To love you so deeply
Like a stab in my gut

PC

How long till we break
How long till we're defeated
How long till it's not worth it
Anymore?

C

Fight till the end of time
For our sanity
With much trepidation
With much trepidation

Fight till the end of time
It's our galaxy
Our foolish determination
Our foolish determination

V

Years quickly passed
Turn blind ignorance
We picked ourselves up
Just pure endurance

Don't let me go
Hold on tighter
The world might be vast
But not that much brighter

B

Did you see this coming?
What it worth the wait?
All that prolonging
We're just so afraid
X2
