

**Title : Shooting Stars**

**Composer : Joshua Wan**

**Lyricist : Ken Lim**

Reach for what you wish for  
Bring on special moments  
Stars will shine upon the dreams  
You live for everyday

The world is waiting for you  
Your heart will always guide you  
Don't be afraid to fall

**Bridge**

There's always roads  
That leads you where you want to be  
Try your very best and you will see

**Chorus**

Believe in what you stand for  
Holding on your reasons  
The stars above  
Will always be your guiding light  
Never lose your heaven  
Dreams do come true  
When you wish upon a star

Taking on your chances  
Faith is all that matters  
There is nothing that you  
can't do if you stay on strong

Time will take you places  
Where dreams are only made of  
Be true to all you do
