**COMPOSER : Ian Low**

**LYRICIST : Ian Low**

You think you know it  
But but you don't show it  
You don't even care

And I see people cramming into trains  
And you still think its fair

You had it made  
You had it good  
You think you're misunderstood

You think that maybe  
That we are blind  
But we can see

You think that money  
Is all we want  
I think you better leave
