

Title : Just The Way It Is

Composer : Mel Ferdinands

Lyricist : Mel Ferdinands

Do you remember once upon a time
When you were mine
The stars above were bright and new
I pulled them down for you
Just when I fell in love again
You said that all good things must end

Baby, that's just the way it is baby
Baby, that's just the way it is baby

I never had a head for solitaire
It's so unfair that I should have my chance and lose
Feel like I'm being used
To help you through another night
You spell it out in black and white

The Chance that once it carried you away
Will bring you back today
The time has washed away my pain
I find that things have changed
And disappeared without a trace
You can't get back what you've erased

And I say
That's just the way it is
Ooh, that's just the way it is
Ooh, that's just the way it is
