

Title : Stupid

Composer : Terry Lee

Lyricist : Terry Lee

Have you ever been caught up in a situation that seems bigger than you
When you try to shake it off it won't let you go here it comes runnin back to you
But what I didn't know was what you had in store so I kept up with your flow
Till it turned out what you had me do was act out playin your fool
Well I can't stand your attitude can't take the jazz you give
I understand the games you play but I don't go down that way
I gave you everythin you like went out the way for you
But you take me for granted only call when you feel like it

Chorus

Its so stupid I feel sick and tired
Girl you're not exquisite and I know I'll find somebody
Its so stupid you ain't even my girlfriend
Look how I've been spendin but now I see
I'ma be alright without you

Verse

See I know that you know that I would never say no
And I know that you know this I'd go wherever you go
In the midnight when you call me and you need my hand to hold
Well those good times they're gone now wont stand for this no more
So it's goodbye get used to it I'm walkin away from you
When I look back when I hear you cry got bitten once I'm shy
You ask me what you did and I say it's not your fault
Believe me I didn't see the mess you'd done to me

Chorus

One day you'll understand the type of man I am
When you're done playin all your games you'll wish that I'm around
When you had me at your back and call and you couldn't appreciate
Well I'm good enough I'll walk away there's nothin left to say
(T. Lee rap)

Chorus
