

**Title : Be Smart, Be Cool, Be Careful**

**Composer : Bani Farook**

**Lyricist : Babes Conde, Mark Richmond**

When you start the day  
In your special way  
Cherish every moment and time

Not too long ago  
Never is the same  
From the other day or right now

One never know what's yet to come  
Just a forecast of the weather  
We get along from day to day  
Feeling fancy free and easy  
And like the song that bobby wrote  
Don't you worry just be happy  
Listen to me (that's why I sing this song)

**RAP**

Pedestrians crossing the streets now  
Take care let me show you how  
You look to the left, you look to the right  
Dressing up brightly when at night  
Be careful, be smart, and do be cool  
We don't want the road to turn  
Into a pool of blood  
Yeah!  
Mothers cry. another child dies  
And we don't even know why  
There are signs to follow  
Use them kids, or there's no tomorrow

Every single rule  
Is a special tool  
Read it, use it in every way

Whether rain or shine  
Always keep in mind  
Look before you cross  
And don't rush  
One's never sure of what's to come

Here today or gone tomorrow  
We move along from day to day  
Whether filled with joy or sorrow  
And like the song that bobby wrote  
Don't you worry just be happy  
Listen to me, that's why I sing this song

**RAP**

That is my message listen good  
And spread it round this neighbourhood  
Safety first keep it that way  
Follow the rules and live another day  
I design this rhyme to stick in your mind  
Lust be careful yo! everything will be fine  
A lot of accidents occur today  
Just because pedestrians want  
Things their own way  
Back to basics before another hitch  
Don't take a chance use the overhead bridge  
Traffic lights are around everywhere  
Walk when the green man says ah yeah!  
Rules and regulations tor every occupation  
Anticipation for a safety nation  
Be cool, be careful, and do be smart  
Teach it to the young, let them make a start
