

Title : What I Want To Do

Composer : Ken Lim

Lyricist : Ken Lim

There's only so much we can talk about
My world, your hopes and what is happening now
You send a signal, I go round and around
My mind's not working time's running out

You know I want you to feel as I do
Just can't decide what is right for you

It's not so easy, to figure you out
My heart, My soul, My mind is so unsound

I need your whispers to speak out now
I like my music clear and loud

Chorus

I'm waiting to show my emotions to you
Create a world you've never knew
Don't need any justifications or reasons to do
What I want to do
I'm trying to tell you I'll change with your moods
You bring on the sun closer than you should
I want to share a night of dreams with you
That's what I want to do

I'm just a guy who likes to go with the flow
There is no sense when your heart takes control

I need your whispers to speak out now
I like my music clear and loud
