

**Title : SPACE DISCO**

**Composer : Dick Lee**

**Lyricist : Dick Lee**

Can you see that scar to the left of Mars?  
It's a whole new galaxy  
Where you are the star, find out who you are  
Or live out your fantasy  
It's the seventh sense, in the future tense  
It's the dream your dreams will be  
And we're taking off to planet love

**Chorus:**

Space Disco, Space Disco  
Space Disco, Space Disco  
You can dance all night  
At the speed of light  
In your own private satellite  
Space Disco, Space Disco  
Space Disco, Space Disco

Can you see that star to the left of Mars?  
It's a whole new galaxy  
Where you are the star. Find out who you are  
Or live out your fantasy  
Have a cosmic dream, on a laser beam  
Shooting skyward, flying free  
As we're taking off, to planet love

**Chorus:**

Space Disco, Space Disco  
Space Disco, Space Disco  
You can dance all night  
At the speed of light  
In your own private satellite  
Space Disco, Space Disco  
Space Disco

**(Repeat Chorus Twice)**
