

Title : Letter to Jobim

Composer : Leonard Ng

Lyricist : Leonard Ng

Not a cloud obscures the view
Of the moon and stars
As I think of you
Not a drop of rain falls through
From the skies above
I remember you

Oh how sweet the words she sings
With the melody you bring
A sound too complete to describe
With chords so discreet
The way that they meet

Won't you play just one more tune
From where you are
As I think of you
I can hear your voice ring through
With a faint reply
I remember you
