

**Title : Letter to Jobim**

**Composer : Leonard Ng**

**Lyricist : Leonard Ng**

Not a cloud obscures the view  
Of the moon and stars  
As I think of you  
Not a drop of rain falls through  
From the skies above  
I remember you

Oh how sweet the words she sings  
With the melody you bring  
A sound too complete to describe  
With chords so discreet  
The way that they meet

Won't you play just one more tune  
From where you are  
As I think of you  
I can hear your voice ring through  
With a faint reply  
I remember you
