

**Title : Nothing Gets In My Way**

**LULU**

When I was little I remember boys  
Were always coming around  
destroying my toys  
So what did I do  
I cried and cried till I turned blue  
Boo hoo hoo hoo

So I've learnt something after  
all these years  
I've learnt to turn on those  
crocodile tears  
Well what can I say  
A girl has to get her own way  
Everyday

Some say I'm as hard as  
diamonds and nails  
Baby can you blame me  
My ways are only operational  
When all else fails

Bring me a man who's got  
something to give  
And plenty more to offer than  
Weaklings who don't give a  
reason to live

I don't think their loving can  
Thrill me like money  
Emeralds and power can  
Listen honey  
Nothing stands in my way  
None of your bitsy bouquets

Well I developed just a mite too fast  
And learnt the hard way true  
love doesn't last  
Those lousy males

Live up to every old WIFE'S tales  
Fairy tales

So gentlemen look out for my reply  
I'll take the best of you and  
squeeze you dry  
That is my plan  
To fully utilise my man  
And I can

So girls, just remember Lulu's around  
And Lulu can get serious  
My world hasn't any room for  
every girl in town

Show me a man with the  
huge... residence  
And a bank account that's  
bigger than  
He'll be worth every mark, yen and cent  
So call me a gold digger then  
Thrill me with money  
Power fame and pearls my friends  
Listen to me no one stands in my way  
Oh please give me a break

Now I've got a little warning to make  
So listen very carefully  
The life of every tart who gets  
in my way's at stake

Take me to where I can find Mr Rich  
I don't care what he looks like  
Cos I'll be able to comfort an itch  
That's urging you to be the boss  
Money's like honey  
Sticking specially when in hand

So get the message  
No one stands in my way  
With effect from yesterday  
Nothing gets in my way  
Nothing nothing gets in my way  
Oh Yeah....
