

TITLE : Broken Earth

COMPOSER : Ian Low

LYRICIST : Ian Low

The heart of every life
It's deep in your soul
Just take a look thru your window
There's beauty
Just everywhere you go

The miracle of life
Is more than we will know
Don't forget the little things we hold
Just give it time
And maybe they will grow

With every breath in everywhere
Don't make this a broken earth
With every touch in every way
Just take a good look

With every step and every care
Don't make this a broken world
With every life in everyone
The earth is so good
