

**Title : Drive Safe**

**Composer : Maizurah**

**Lyricist : Babes Conde**

It's so easy losing ourselves  
Demands of these modern times  
New age pace is a high tech race  
Well, danger's right down the fine

It's so easy finding ourselves  
Bewildered by the changes today  
Better be safe, don't you agree  
The risk is high so drive carefully

\* Keep to your space, go for the safer place  
One big mistake and you're history

**c/o:**

Bad attitude, it comes to intrude  
You start to wonder what the world's coming to  
But keep your cool, don't be the fool now  
It is time for playing the rules right  
Drive safe you're in control  
Way out there you're on your own  
Be sure of the way that you choose  
It you're going to drive, don't drink at all  
Coz when you do it's easier to lose

**Repeat \*. Repeat c/o -**

There's so much we try to do  
Trying to push ourselves too far  
If we only remember what life is about  
We'll realise, it's all the same  
Just like wheels are turning around and round

**Repeat c/o**
