

Title : Everywhere

Composer : VerticalRush

Lyricist : Esmond Wee

Lying awake at night
loneliness engulfs him
The dance is over
the clubs are closed
And the silence is killing him.
In the still, he ponders
These hearts seem to roar
It was fun while it lasted
While it lasted

To his left lies
an evidence of beauty
That he tarnished Just hours before
Sweet innocence he stole
remains of guilt thus enfold
Dead beat messed up
is this the life?

Is there anyone out there?
"I'm everywhere"

Staring at the stars
Screaming at the skies
Wondering
what lies ahead up there
Searching for answers
Its everywhere
