**I Sing With Hope**

(我和希望 合唱)

Through storm after storm

Obstacle after obstacle

You have learnt to be stronger

Let the future hold your hands tight

And leaving memories and wounds behind

Proceed on the journey yet to be finished

Don't let the dream

Wait in loneliness

Come back the wandering soul

For you need not travel afar to chase the dream

A-ah-ah I sing with hope

May the sun shine into every life

And the flame of freedom and fresh blood and sweat

Blaze in your chest forever
