

**Title : Song Of Hope**

**Composer : Ong Seng Chin**

**Lyricist : Ong Seng Chin**

Look through the eyes of our children  
They are the future generation  
To help our earth to grow again  
We cannot stand alone  
Children put your voices together

We've taken so much from this earth  
It's time we gave some in return  
The miracle of nature's birth  
We cannot let it burn  
Plant the seeds of life and sing this song

**Chorus**

Sing Singapore, sing to the world  
Sing a song of love and hope  
A song of peace and joy  
Sing Singapore, let voices unite  
Spread the word of happiness with a melody

There's so much hurt left in this world  
Let a little love warm the bitter cold  
All races living in harmony  
We can do it if we try  
Find the will to love and set it free

**Repeat Chorus**
