**English translation**  
**A Gracious Place**  
(优雅的天地)

There is a place called Lion City  
A city of flowers where cool breezes and hot air blow  
A small, small place with easy access everywhere  
We are in the forefront of Information Technology  
No change of seasons, nor rainstorms  
No natural disasters, nor shadows of war  
Towards our cultural life, we have yet to work  
Different languages though we speak  
We are still searching for a common voice  
To create a gracious place  
Towards cultural continuity, we have yet to work  
Different languages though we speak  
We are still searching for common footprints  
To create a gracious place  
There is a place called Lion City  
Brilliantly illuminated and flourishing  
With no mountains or rivers but only warmth  
Tourists are flocking here all the same
