

Title : Stay

Composer : Dick Lee

Lyricist : Dick Lee

SITI

When you wake every day
And you think life is going your way
You will go round a corner and Bang!
You hit a wall
And one that's very tall
So I look at the top
And I think that I might as well stop
'Cause I'm not gonna get anywhere

SITI & OSMAN

Yes I know
Time to turn around
Fly away somewhere
Get up off the ground
I would go
Where the world is good
If I only could I'd run away
But the truth is, here I want to stay

OSMAN

When you look at the change
And you think that it's all very strange
Then you try to fit in and then Bang!
You hit the end

SITI

It drives you round the bend

SITI & OSMAN

So you say, "Start again"
Even though you are going insane
Though you won't be a big millionaire

You just go

Struggling like a dope
Waiting for a chance
Hanging on to hope

I would go

Where the world is good
If I only could I'd run away
But the truth is here I want to stay

You just go

Struggling like a dope
Waiting for a chance
Hanging on to hope
I would go

Where the world is good
If I only could I'd run away
But the truth is here I want to stay
I would go

Where the world is good
If I only could I'd run away
But the truth is here I want to stay
